

# Overview of DEQ Applications for “The Federal American Economic Recovery and Reinvestment Act of 2009”

# Programs Eligible to Receive Stimulus Money

- Cleanup of Leaking Underground Storage Tanks
- Bunker Hill Superfund Site Yard Remediation
- Diesel Retrofit Projects
- Drinking Water and Clean Water State Revolving Loan Funds
- Water Quality Management 604(b) Grant

# Cleanup of Leaking Underground Storage Tanks

- \$1.3 M anticipated for Idaho
- Existing program within DEQ
  - Approximately 130 eligible sites
- No state match required
- Up to four years to complete the work
- No additional state employees required
- Existing contractors to perform the work
- Cleanup up to 30 sites

# Bunker Hill Superfund Site Yard Remediation

- \$20M (\$10M for next two years)
- Existing program within DEQ
- 10% match
  - No fiscal impact as we are only accelerating cleanup schedule, not adding additional federal cost
  - Match is already accounted for
- Two years of increased funding (then resume normal funding)
- Two to three additional limited service employees needed in Kellogg
- Additional contractor hired for seasonal work
  - Create approximately 70 additional season jobs

# Diesel Retrofit Projects

- \$1.7M anticipated for Idaho for retrofits
- \$1.5M - \$2M available through competitive grant for heavy duty diesel state fleet retrofits
- Existing program within DEQ
- No state match required
- Up to two years to complete the work
- One limited-service employee needed
- Contractors will compete for work

# Drinking Water and Clean Water State Revolving Funds

- \$38.7M anticipated for Idaho
  - \$19.2M for CWSRF
  - \$19.5M for DWSRF
- Existing program within DEQ
  - Total + stimulus = \$102M available to loan
- No match requirement
- Contracts for construction within 12 months
- No additional state employees required
- \$761M in requests submitted to DEQ

# Water Quality Management

- \$194K anticipated for Idaho
  - 1% of CWSRF funding
- Existing surface and waste water program within DEQ
- No state match required
- Until Sept. 30, 2010 to complete work
- No additional state employees required
- Fund specific studies
